

Registration with Embassy/Consular representation in Malta

All international (including Erasmus) students who enrol on courses at the University of Malta are required to be registered with the appropriate Embassy or Consular representation accredited to Malta.

Besides being a University requirement, it is also in the students' own interest to do so, as it will enable the embassy or consulate to communicate with the students concerned if need be, and be in a better position to respond should they require its services.

Use BLOCK CAPS please
